Test 8
Unit 8 (Beginner)

I. Reading: Read the following passage then answer the questions below

Vancouver is in south west Canada, next to the Pacific Ocean, 24 miles from the USA borders.

It is always a good time to visit Vancouver. The weather is never too cold or too hot. It is warm and sunny in summer, but it rains a lot in autumn and winter.

In spring, go swimming, sailing or fishing, or go walking in north America's biggest park, Stanley Park. Three are excellent shops in Yale town, and there is also theatre of every sort. Vancouver is "the city of festivals".

Vancouver is a <u>cosmopolitan</u> city so there are French, Italian, Japanese, Indian, Thai, and Chinese restaurants. Vancouver's Chinatown is the second biggest in North America, after San Francisco. There is also a lot of delicious, fresh seafood.

In the busy city centre there are some excellent, expensive hotels. The beautiful Fairmont hotel is 400 \$ a night, but next to the sea there are a lot of cheap, comfortable hotels from \$59 a night.

You don't need a car in Vancouver. There are slow, old trolley buses and there is the fast, modern sky train. Take the ferry - it is a great way to see the city.

Test 10
Unit 11 (Beginner)

I. Reading: Read the following passage then answer the questions below:

The Internet started in the 1960s. The United States Department of Defense started it because they wanted a computer network to help the American military. In the 1970s, scientists worked on it and learnt how to send messages between computers. Then in the 1980s, telephone companies made it possible to communicate on the computer network in many more countries. An international computer language was born, and the Net went worldwide.

You can use the Internet for millions of things. You can "google" for information about anything and everything; you can buy and sell clothes and cars; you can book a hotel, a holiday, or tickets for the cinema; you can pay your bills; you can watch your favourite TV programme; you can play chess with a partner in Moscow; you can "chat" to your friends and share photographs on Flickr; you can write a blog about your life.

I. Reading: Read the following passage then answer the questions below

Al Wheeler from Canada

We have long, cold winters and short, hot summers. We have a holiday home near a lake, so in summer I go sailing a lot and I play baseball, but in winter I often play ice hockey and go ice-skating. My favourite season is autumn, or fall, as we say in North America. I love the colours of the trees- red, gold, orange, yellow, and brown.

Manuela Da Silva from Portugal

People think it's always warm and sunny in Portugal, but January and February are often cold, wet, and grey. I don't like winter. I usually meet my friends in restaurants and coffee shops and we chat. Sometimes, we go to a Brazilian café. I love Brazilian food. But then suddenly it's summer and at weekends we drive to the beach and go swimming. I love summer.

Hamad Saleh from Bahrain

I work for Gulf Pearls, in the export department. I don't have a lot of free time, but I have one special hobby- taking underwater photographs. I love diving and the fish are very beautiful. Sometimes, after work, I relax in a coffee shop near my office with friends. My friend, Jamal, likes motor racing and <u>he</u> has tickets for the Formula One World Championship in Sakhir next spring. I don't like motor racing- it's too noisy!

Reading passage 1:

Planes To Rockets In Sixty Years

There are just 60 years between the first flight and the first man on the moon. In the 20^{th} century, progress in aviation was phenomenal.

1909 The first Air Journey:

On July 25 1909, a Frenchman, Louis Bleriot, became the first man to complete an air journey when he flew from Calais, in the north of France, to Dover, in the south of England. Bleriot's flight amazed the whole of Europe. People thought that such a journey was impossible.

The flight:

The flight wasn't easy. Mr. Bleroit, a 27-year-old engineer, couldn't swim, so he didn't want to come down in the Channel. He couldn't walk very well because of a leg injury, and he didn't have a compass.

On the morning of the 25th, he took off at 4:30 from a field at the edge of a cliff. It took 37 minutes to complete the 22- mile journey. The plane flew at 40 miles per hour at an altitude of 250 feet.

Everything went well until he flew into fog. "I continued flying for ten minutes, but I couldn't see the land, only the sky and the sea. It was the most dangerous part of the flight. I wasn't worried about the machine. It flew beautifully. Finally, I saw the land," he told reporters.

Landing in England:

When he got to Dover, he saw a French newspaper journalist waving a flag. He cut the engine at 60 feet and crashed into a field. The news quickly went round the world, and Mr. Bleriot's flight was celebrated in London and Paris. He won a prize of \pounds 1,000.

"The crossing was the start of modern aviation," said Louis Bleroit, the grandson of the pioneer.

Reading passage 2:

1969 The first man on the moon

On 16 July 1969, at 9:30 in the morning, Apollo 11 lifted off from the Kennedy Space Centre in Florida. There were three astronauts - Neil Armstrong, Buzz Aldrin, and Michael Collins. The enormous rocket took three days to complete the 250,000 miles to the moon, travelling at six miles per second (21,600 miles an hour). Then it circled the moon 30 times, giving time to prepare for the landing.

The lunar landing:

The lunar module landed on a part of the moon called the Sea of Tranquility at 8:17 in the evening on 20 July.

It was time for the astronauts to rest, but <u>they</u> were too excited to sleep. At 3:00 in the morning on July 21, Neil Armstrong became the first man to walk on the moon. Six hundred million people all over the world watched the moonwalk on TV. As Armstrong took his first steps, he said the famous words, "That's one small step for man, one giant leap for mankind".

Walking on the moon:

Armstrong and Aldrin spent two and a half hours walking on the moon. They collected samples and set up scientific equipment. Finally, they put up a US flag. After 22 hours on the moon, the lunar module lifted off and flew up to join the rocket that took them back to Earth. They left an inscription: HERE MEN FROM THE PLANET EARTH FIRST SET FOOT UPON THE MOON, JULY 1969. WE CAME IN PEACE FOR ALL MANKIND.

This flight was the beginning of man's exploration of space.

Two Americans, Jacob Davis and Levi Strauss, made the first jeans in 1873. Davis bought cloth from Levi's shop. He told Levi that he had a special way to make strong trousers for workmen. The first jeans were blue. In 1935 jeans became fashionable for women after they saw them in "Vogue" magazine. In the 1970s, Calvin Klein earned \$12.5 million a week from jeans.

A Scotsman, John Logie Baird, transmitted the first television picture on 25 October, 1925. The first thing on television was a boy who worked in the office next to Baird's workroom in London. In 1927 Baird sent pictures from London to Glasgow. In 1928 he sent pictures to New York, and also produced the first colour TV pictures.

Felix Hofman, a 29-year-old chemist who worked for the German company Bayer, invented the drug Aspirin in April 1899. He gave the first aspirin to his father for his arthritis. By 1950 it was the best-selling painkiller in the world, and in 1969 the Apollo astronauts took it to the moon. The Spanish philosopher, Jose Ortega y Gasset, called the 20th century "The Age of Aspirin".

I. Reading: Read the following passage then answer the questions below:

For 99% of human history, people took their food from the world around them. They are all that they could find, and then moved on. Then about 10,000 years ago, or for 1% of human history, people learned to farm the land and control their environment.

The kind of food we eat depends on which part of the world we live in, or which part of our country we live in. For example, in the south of China they eat rice, but in the north they eat noodles. In Scandinavia, they eat a lot of herrings, and the Portuguese love sardines. But in central Europe, away from the sea, people don't eat so much fish, they eat more meat and sausages. In Germany and Poland there are hundreds of different kinds of sausages.

In North America, Australia, and Europe there are two or more courses to every meal and people eat with knives and forks. In China there is only one course, all the food is together on the table, and they eat with chopsticks. In parts of India and the Middle East people use their fingers and bread to pick up the food.

Nowadays it is possible to transport food easily from one part of the world to the other. We can eat what we like, when we like, at any time of the year. Our bananas come from the Caribbean or Africa; our rice comes from India or

the USA; our strawberries come from Chile or Spain. Food is very big business. But people in poor countries are still hungry, and people in rich countries eat too much.

Reading passage 1

High Speed Tokyo

Tokyo has a population of 35 million people. It is the largest city in the world. It is also one of the most exciting. Everything moves fast here. It has one of

the biggest and busiest railway systems in the world. Every day, 11 million commuters use it to get to and from work. People earn the highest salaries, and they spend the most money. They wear the latest fashions, and have the most up-to-date phones. It is the world's most expensive city.

Old and New

Tokyo was originally a small fishing village called Edo. The name changed in 1868 when the Emperor moved there. The architecture is very modern. There are not many old buildings because of the 1923 earthquake and the Second World War. But traditional Japan is always near, with many Shinto shrines and public baths around the city.

Visiting Tokyo

Tokyo is on the east coast of Japan. The summers are hot and humid. The most beautiful time of year is spring, when the famous cherry blossom is on the trees. The city is huge, but <u>it</u> is one of the safest cities in the world. Japan is mysterious. It is difficult for foreigners to understand.

1-	Tokyo is known to be
	a- the smallest city in the world
	b- the largest and one of the most exciting cities in the world
	c- the coldest city in the world
	d- the highest and most dangerous city in the world
2-	In Tokyo, people have

Mumbai A City Of Extremes

Mumbai is India's largest city with a population of 22.8 million. It is also India's most important commercial center. Mumbai was part of the British Empire until independence in 1947. It was called Bombay until 1995, when it was renamed Mumbai after a Hindu goddess, Mumba Devi.

Rich and Poor

Mumbai is both old and modern, rich and poor. The streets are full of people doing business, selling snacks and clothes, or just living there.

Money is everywhere in modern Mumbai. India's most important businesses and banks have their headquarters there. Mumbai is also one of the biggest centers of India's growing IT industry.

Modern skyscrapers and new shopping malls are right next to slums. Sixty percent of the population live with no running water, no electricity, and no sanitation.

Visiting Mumbai

Mumbai is on the west coast. The wet season is from June to September. Between November and February <u>it</u> is a little cooler and drier.

The city is best at sunrise and sunset, when the colour of the stone buildings changes from gold to orange and pink. The cheapest and easiest transport is by bus. Trains can be crowded and dangerous.

Reading passage 3

Multicultural Mexico City

Mexico City has a population of 23.4 million. It is the largest city in both North and South America. The Aztecs called it Tenochtitlan, and it was already an important city when the Spanish invaded in 1521. The country became independent in 1821.

Indian and European

Mexico City offers a variety of experience. Standing in the Zocalo, the main square, you can see buildings from the city's Spanish and Aztec past, and also a modern skyscraper, the first in the world to survive a major earthquake.

European squares and colonial houses sit next to busy markets selling Mexican food and Indian handicrafts. The city has many tourist attractions, monuments, and parks. <u>It</u> is the richest city in Latin America. There are elegant shops selling high-class goods, expensive restaurants, and super cool cafés. There are also many people who live in poor houses.

Visiting Mexico City

Mexico City is in a valley in the south central area of the country. It is surrounded by mountains.

The rainy season is from June to October. The warmest months are April and May. It has the largest and cheapest subway system in Latin America. Traffic moves so slowly that it is often faster to walk. The air quality is not good, and visitors need to be careful, but the city offers a rich cultural mix.

1-	Mexico City was named Tenochtitlan by a- the Spanish
	b- the Aztecs
	c- the Mexicans
	d- the British
2-	What is strange about the modern skyscraper in Mexico City? a- It was built in 1821. b- It has 25 floors c- It survived a major earthquake. d- It has a lot of poor people

Test 18 Unit 11 (Elementar	יעי. עי

I. Reading: Read the following passage then answer the questions below

Once upon a time, a businessman named Ray Kroc discovered a restaurant owned by two brothers. The restaurant served just four things: hamburgers, French fries, milk shakes and coca cola. But it was clean and inexpensive, and the service was quick. Mr. Kroc liked it so much that he paid the brothers so that he could use their idea and their name: McDonald's.

Beef, big business and fast service were the three main things when Mr. Kroc opened his first McDonald's in 1955. Four years later, there were 100 of them. Kroc knew Americans liked success. So he put signs saying how many millions of McDonald's hamburgers people had bought. In just four years, the number was one hundred million. Now, there are more than 13,000 McDonald's restaurants from Dallas to Paris and from Moscow to Beijing.

Anyone who wants to open a McDonald's must first work in one for a week. Then, they do a nine-month training programme, in the restaurants and at "McDonald's University" in Chicago. There they learn the McDonald's philosophy: quality control, service, cleanliness and cheap prices. McDonald's has strict rules: hamburgers must be served before they are ten minutes old, and French fries, seven.

McDonald's has never stopped looking for new methods to attract customers, from drive-in windows to birthday parties. Chicken, fish, salad and, in some places, pizza are now on the menu. McDonald's in Holland even sells a

vegetarian burger. Their international popularity shows they have found the recipe for success.

Test 19
Unit 12 (Elementary)

I. Reading: Read the following passage then answer the questions below

Clem Quinn was always interested in flying. When he was five, he tried to fly by jumping off the garden shed with a golf umbrella, but when he grew up he didn't become a pilot, he became a taxi driver. Then 20 years ago he did a parachute jump and loved it. He decided that being a taxi driver in London was a lot more dangerous than jumping out of a plane, so he moved to the country to learn parachute jumping and sky-diving. He is now a full-time teacher of sky-diving. He says:

"I love sky-diving because the world looks so good - blue sky, green fields, white clouds. You float through the air, it's like floating in water. You can see forever, all the way to the French coast. The views are fantastic. You can forget all your worries. People think it's dangerous, but it's safe. Football is much more dangerous. Footballers often have accidents. When did you last hear of a sky-diving accident? Next July I'm going to do a sky-dive with 100

people from six planes. That's a record. I'm never going to retire. I'm going to jump out of planes until I'm an old man."
